

July 10, 2004.

To Donna and Oli Getz,

Due to recent information that has been brought to my attention by numerous parties, Western Canadian Coal, M.L.A. office in Dawson Creek, Shell Canada, Talisman Energy, OG Fort St. John, Labor Relations, local people, etc. It has been decided by the John Terry Estate it would not be in our best interests to have you stay on at the Wolverine Property any longer.

This is written notice that you are required to remove your selves and all of your persc belongings from the wolverine property before or by the 31<sup>st</sup> of August, 2004. On that date a upon inspection of the property, if it has been left in a reasonable state of order, as was when came, a farther \$200 will be sent to you at your new address.

I would hope that this will be done as quickly and peacefully as possible. We are prepa to take what ever legal action may be required to see that you are moved. It has been brought my attention that the local paper would be interested on writing a follow up article on you sim last year. As a lot of these above mentioned outfits do generate a lot of business in the area. I prepared to keep this as confidential as possible though.

Sincerely, Marv Ann Evben.
